

I received a letter from Jim Gillett Dated August 2, 2006 which he indicated that Graham Stock returned from Nigeria early in July and he reports that up to 100 people are coming through the gates of The Haven Of Hope—Every Day—for literacy classes, primary school, the medical clinic, and Bible College. Many, many lives are being impacted with the Gospel message and solid Bible teaching through this ministry.

Below you will find some pictures with brief description of the photograph.
